Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

Abalone, pigments of (Comfort, A.) 204
Absorption apparatus for trichloroethylene distilled in steam (Brain, F. H. & Helliwell, P. J.) 92
Absorption of DL-thyroxine labelled with radioactive iodine (Clayton, J. C., Free, A. A., Page, J. E., Somers, G. J. & Woolett, E. A.) xx
Absorption of vitamin A (Eden, E. & Sellers, K. C.) xxxiii
Absorption, ultraviolet, of phenylglucuronidic acid (Garton, G. A., Robinson, D. & Williams, R. T.) 65
Acetamide and acetic acid hydrolysis by rabbit-liver preparation (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Acetamide and acetic acid metabolism in rabbits (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Acetate, conversion to glycine in rat (Arnstein, H. R. V. & Neuberger, A.) iii
Acetate formation by *Clostridium saccharobutyricum* (Cohen-Bazire, G. & Cohen, G. N.) 41
Acetate, formation by oxidation of pyruvate by pigeon brain (Coxon, R. V., Liébecq, C. & Peters, R. A.) 320
Acetic acid in bovine peripheral blood, utilization by the mammary gland (McClymont, G. L.) i
N-Acetylglucosamine, breakdown by strains of streptococci (Rogers, H. J.) 87
Acid phosphatase activity in eythrocytes of infants and adults (Jones, P. E. H. & McCance, R. A.) 464
Acid phosphatases of erythrocytes and of human prostate gland (Abul-Fadl, M. A. M. & King, E. J.) 51
Acid production of mammary tissue during pregnancy, lactation and involution in the rat (Folley, S. J. & French, T. H.) 270
Acidity, gastric, reduction by back-diffusion of hydrogen ions through the mucosa (Terner, C.) 150
Acids, fatty, long-chain, unsaturated, as essential bacterial growth factors (Pollock, M. R., Howard, G. A. S. & Boughton, B. W.) 417
Acid-soluble phosphorus in hen eggs during development of embryo (Ramsay, W. N. M.) ix
Activation, energy of, of the tryptophanase-tryptophan indole reaction (Happold, F. C. & Morrison, G. A.) xx
Adaptation, biochemical, effect of diet on intestinal phosphatases of rat (Lawrie, N. R. & Yudkin, J.) 438
Adenosine, effect on germination of *Bacillus anthracis* (Hills, G. M.) 253
Adenosinediphosphate, enzyme assay of (Bailey, K.) 479
Adenosinediphosphate, formation from adenosinetriphosphate on storage (Bailey, K.) 479
Adenosinetriphosphate, enzymic degradation (Bailey, K.) 479
Adenylic acid formation from adenosinetriphosphate on storage (Bailey, K.) 479
Adrenaline, alleged mobilization of vitamin A by (Goodwin, T. W. & Wilson, A. A.) 370
(+)-Adrenaline, fate in rabbit (Dodgson, K. S. & Williams, R. T.) 381
Adrenaline, inactivation of serum alkaline phosphatase by (Anderson, A. B.) xxxvi
Adsorption chromatography, separation of *N*-2:4-dinitrophenyl derivatives of methyl esters of amino-acids by (Lowther, A. G. & Reith (Reich), W. S.) vi
Adults, enzyme activities of blood of (Jones, P. E. H. & McCance, R. A.) 464
Aerobacter aerogenes, 'early-lag' phase of (Dagley, S., Dawes, A. E. & Morrison, G. A.) xxv
Aerobacter aerogenes, mutants of, requiring nicotinic acid and histidine (Devi, P. & Higginbottom, C.) 391
Aerobes, spore-bearing, germination of (Hills, G. M.) 353, 363
Aerobic oxidation of succinate, inhibitors of (Slater, E. C.) 8
Alanine, effect on germination of spores of *Bacillus anthracis* (Hills, G. M.) 363
Albumins, urine and serum, mobility in electrophoresis (Hoch, H.) 285
Alkaline haemochromogen (Keilin, J.) 448
Alkaloid salt fractionation for purification of potato eel-worm hatching factor (Calam, C. T., Todd, A. R. & Waring, W. S.) 520
Allantoic fluid from ewes fed during pregnancy, composition of during gestation (McDougall, E. I.) 397
Alveolar bone, metabolism of, in mammals (Weidmann, S. & Rogers, H. J.) xxv
Amide nitrogen of substances from connective tissue (Bowes, J. H. & Kenten, R. H.) 281
Amides, lower aliphatic, fate in rabbit (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Amides of potato juice (Chick, H. & Slack, E. B.) 211
Amides of toluic acids, fate in rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 45
Amines, aliphatic, respiration of rat-liver slices in presence of (Long, C.) xi
Amino compounds, reactions with retinene, (Ball, S., Collins, F. D., Dalvi, P. D. & Morton, R. A.) 304
Amino nitrogen, estimation of micro amounts and its application to paper-partition chromatography (Woiwod, A. J.) 412
Amino sugars, metabolism of (Rogers, H. J.) 87
Amino-acid decarboxylases of rat liver (Sloane-Stanley, G. H.) 556
Amino-acid distribution of collagen, elastin and reticular tissue from different sources (Bowes, J. H. & Kenten, R. H.) 281
Amino-acids, deamination by X-rays (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 93
Amino-acids, *N*-2:4-dinitrophenyl derivatives of methyl esters of, separation by adsorption chromatography (Lowther, A. G. & Reith (Reich), W. S.) vi
Amino-acids, *N*-2:4-dinitrophenyl, use of buffered columns in the chromatographic separation of (Blackburn, S.) 579
Amino-acids, effect on germination of *Bacillus anthracis* (Hills, G. M.) 363
Amino-acids, hydroxy, separation from proteins and hydrolysates (Elliott, D. F.) 429
Amino-acids in nisin (Berridge, N. J.) 486
Amino-acids, influence on 'early lag' (Dagley, S., Dawes, E. A. & Morrison, G. A.) xxvi
Amino-acids of potato juice (Chick, H. & Slack, E. B.) 211
Amino-acid oxidase of *Neurospora crassa* (Bender, A. E., Krebs, H. A. & Horowitz, N. H.) xxi
Amino-acids, separation by ion-exchange resins (Davies, C. W.) 38
p-Aminobenzoic acid, condensation products with reductone (Bell, E. A., Cocker, W. & O'Meara, R. A. Q.) 373
4-Amino-2-hydroxybenzoic acid *see p*-Aminosalicylic acid
m-Aminophenol, determination of *p*-aminosalicylic acid as (Tárnoky, A. L. & Brews, V. A. L.) 508

p-Aminophenylarsenoxide, effect on succinic dehydrogenase and succinic oxidase systems. (Slater, E. C.) 130
p-Aminosalicylic acid, determination as *m*-aminophenol (Tárnoky, A. L. & Brews, V. A. L.) 508
Ammonia, formation from *N*-acetylglucosamine by streptococci (Rogers, H. J.) 87
Ammonia, liberation from glycine by X-rays (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 543
Ammonium salts, quaternary, respiration of rat-liver slices in presence of (Long, C.) xi
Amniotic fluid from ewes fed during pregnancy, composition of (McDougall, E. I.) 397
β-Amylase, inhibition of plant phosphorylases by (Porter, H. K.) xxxvii
Aneurin deficiency and interrelationship of vitamins B (Bhagvat, K. & Devi, P.) 32
Aneurin-inactivating mechanism of plants (Roberts, H. E., Evans, E. T. R. & Evans, W. C.) xxx
Anhydrotetronic acid as an artificial hatching agent for potato eelworm (Calham, C. T., Todd, A. R. & Waring, W. S.) 520
Anterior pituitary hormones and mammary gland metabolism of (Folley, S. J. & French, T. H.) 270
Antibiotics, preparation of nisin (Berridge, N. J.) 486
Antisera against complexes of di-2-chloroethyl sulphide and protein (Fleming, D. S., Moore, A. M. & Butler, G. C.) 546
Antrypol *see* Suramin
Apparatus for micro-electrolysis of water (Bentley, R.) 591
Apyrase, potato, use for assay of adenosinetriphosphate (Bailey, K.) 479
Archaeogastropods, pigments of (Comfort, A.) 199
Aromatic compounds, bacterial oxidation of (Parr, W. H., Evans, R. A. & Evans, W. C.) xxix
Artichoke, Jerusalem, enzyme preparation from, action on carbohydrates present in the tubers of (Edelman, J. & Bacon, J. S. D.) xxix
Arylidene-$\Delta^{\beta:\gamma}$-butenolides as artificial hatching agents for potato eelworm (Marrian, D. H., Russell, P. B. & Todd, A. R.) 533
Ascorbic acid distribution in developing salmon (Daniel, R. J.) 435
Ascorbic acid, factors affecting synthesis in cress seedlings (Mapson, L. W., Cruickshank, E. M. & Chen, Yu-Tuan) 171
Assay, microbiological, of substances able to replace oleic acid as growth factor of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Astaxanthin distribution in locusts in solitary and gregarious phases (Goodwin, T. W.) 472
Astaxanthin distribution in marine crustacea (Goodwin, T. W. Srisukh, S.) 268
Astaxanthin in locusts (Goodwin, T. W. & Srisukh, S.) 263

Bacillus anthracis, effect of amino-acids on germination of (Hills, G. M.) 363
Bacillus anthracis, germination of, effect of yeast extract and of adenosine on (Hills, G. M.) 353
Back-diffusion of hydrogen ions through the mucosa, reduction of gastric acidity by (Terner, C.) 150
Bacterial growth factors, essential, long-chain unsaturated fatty acids as (Pollock, M. R., Howard, G. A. & Boughton B. W.) 417
Bacterial oxidation of aromatic compounds mechanism of (Parr, W. H., Evans, R. A. & Evans, W. C.) xxix
Bacterium aerogenes, mutants of, requiring nicotinic acid and histidine (Devi, P. & Higginbottom, C.) 391
BAL *see* 2:3-Dimercaptopropanol
Barley, detection of phosphorylase in (Porter, H. K.) xxxvii
Bayer 205 *see* Suramin
Benzene metabolism in rabbit (Garton, G. A. & Williams, R. T.) 158
Benziminoethyl ether, use in isolation of threonine and serine from proteins (Elliott, D. F.) 429
Bile pigments, possible relationship of *Haliotis* pigments to (Comfort, A.) 204
Bile salts, effect on succinic oxidase activity (Slater, E.C.) 8
Bioassay method for the hatching factor of potato eelworm cysts (Calam, C. T., Raistrick, H. & Todd, A. R.) 513
Biogenesis of porphyrins (Muir, H. M. & Neuberger, A.) 163, xxxiv
Biological activity of *Bacillus anthracis* relation to optical form (Hills, G. M.) 363
Biosynthesis of *o*-, *m*- and *p*-cyanophenylglucuronides (Smith, J. N.) 638
Biotin deficiency, interrelationship of vitamins B (Bhagvat, K. & Devi, P.) 32
Bivalves, pigments of (Comfort, A.) 199
Blastoderm of salmon, ascorbic acid in (Daniel, R. J.) 435
Blood, bovine peripheral, acetic acid in (McClymont, G. L.) i
Blood, determination of sodium and potassium in by flame photometer (Domingo, W. R. & Klyne, W.) 400
Blood, estimation of 'total *p*-aminosalicylate' in (Tárnoky, A. L. & Brews, V. A. L.) 508
Blood, estimation of trichloroethylene in (Brain, F. H. & Helliwell, P. J.) 75
Blood of infants and adults, enzyme activities of (Jones, P. E. H. & McCance, R. A.) 464
Blood of locusts, β-carotene in (Goodwin, T. W. & Srisukh, S.) 263
Blubber of seals (Rodahl, K. & Davies, A. W.) 408
Body size and tissue activity (Folley, S. J. & French, T. H.) 117
Bone, alveolar, metabolism in mammals (Weidmann, S. & Rogers, H. J.) xxv
Bone, organic matrix of (Rogers, H. J.) xxiv
Boron, α-radiation from disintegration of, in a nuclear reactor (Dale, W. M., Davies, J. W. & Gilbert, C. W.) 543
Boundaries in electrophoresis (Hoch, H.) 285
Bovine peripheral blood, acetic acid in (McClymont, G. L.) i
Bracken poisoning of farm animals (Roberts, H. E., Evans, E. T. R., & Evans W. C.) xxx
Brain, pyruvate-oxidase system in (Coxon, R. V., Liébecq, C. & Peters, R. A.) 320
Brassidic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Brucine salt of eclepic acid (Calam, C. T., Todd, A. R. & Waring, W. S.) 520
Buds of walnuts, apparent vitamin C in (Wokes, F. & Melville, R.) 343
Buffered columns, use in chromatographic separation of 2:4-dinitrophenyl amino-acids (Blackburn, S.) 579
Butanolides and hatching of potato eelworm (Russell, P. B., Todd, A. R. & Waring, W. S.) 530
Butenolides and hatching of potato eelworm (Russell, P. B., Todd, A. R. & Waring, W. S.) 530
Butenolides, arylidene-$\Delta^{\beta:\gamma}$-, and hatching of potato eelworm (Marrian, D. H., Russell, P. B. & Todd, A. R.) 533
n-Butyramide and butyric acid, hydrolysis by rabbit-liver preparation (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
n-Butyramide and butyric acid metabolism in rabbits (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Butyrate formation by *Clostridium saccharobutyricum* (Cohen-Bazire, G. & Cohen, G. N.) 41
Byssochlamys fulva, disaggregating enzyme of (Beaven, G. H., & Brown F.) 221
Byssochlamys fulva, pectic enzmyes of (Beaven, G. H. & Brown, F.) 221
Byssochlamys fulva, protopectinase of (Beaven, G. H. & Brown, F.) 221

Calcium, effect on the metabolism of kidney slices from adult and newborn rats (Robinson, J. R.) 68
Calcium in foetal fluids of sheep during gestation (McDougall, E. I.) 397
Calcium phosphates, solubility of (Robinson, J. R.) 68
Calf embryo muscle, intracellular fluid of (Gordon, A. H.) 99
Capillary resistance of guinea pigs (Zilva, S. S.) 79
Carapaces of lobster and prawn, astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Carbohydrates, chemical changes during growth of the pea (Eastham, M.) xvii
Carbohydrates, effect on respiration of lactating mammary gland slices (Folley, S. J. & French, T. H.) 117
Carbohydrates in subterranean organs of some Compositae (Bacon, J. S. D. & Edelman, J.) xxviii
Carbohydrates of tubers, action of an enzyme preparation from *Helianthus tuberosus* L. (Jerusalem artichoke) on (Edelman, J. & Bacon, J. S. D.) xxix
Carbon dioxide production, manometric method for determination (Laser, H. & Rothschild, Lord) 598
Carbon monoxide-carbylamine-haem compounds (Keilin, J.) 440
Carbon monoxide-cyan-haem compounds (Keilin, J.) 440
Carbonic anhydrase, activity in erythrocytes of infants and adults (Jones, P. E. H. & McCance, R. A.) 464
Carbylamine-haem compounds, formation by combination of methyl *iso*cyanide and haems (Keilin, J.) 440
β-Carotene, alleged formation of vitamin A from (Cama, H. R. & Goodwin, T. W.) 317
β-Carotene, distribution in locusts in solitary and gregarious phases (Goodwin, T. W.) 472
β-Carotene in locusts (Goodwin, T. W. & Srisukh, S.) 263
Carotene, role of the thyroid in metabolism of (Cama, H. R. & Goodwin, T. W.) 236
Carotenoid distribution of African migratory locusts and desert locusts (Goodwin, T. W.) 472
Carotenoids in the frog, analytical methods of determination (Morton, R. A. & Rosen, D. G.) 612
Carotenoids of the integument of locusts, (Goodwin, T. W. & Srisukh, S.) 263
Carrot (*Daucus carota*), glutamic decarboxylase of (Hughes, D. E.) 325
Casein, iodinated, alleged formation of vitamin A from β-carotene treated with (Cama, H. R. & Goodwin, T. W.) 317
Catalase activity in erythrocytes of infants and adults (Jones, P. E. H. & McCance, R. A.) 464
Catalyst, respiratory, required for the reduction of cytochrome *c* by cytochrome *b* (Slater, E. C.) 14
Catechins, condensation of and relation to chemical changes in tea fermentation (Roberts, E. A. H.) 538
Cations, interference in flame photometer (Domingo, W. R. & Klyne, W.) 400
Catkins of walnut, apparent vitamin C in (Wokes, F. & Melville, R.) 343
Cell nucleus, phosphorus compounds in (Davidson, J. N. & McIndoe, W. M.) xvi
Central nervous system, degeneration in, and vitamin A deficiencies in rats (Coetzee, W. A. K.) 628
Central nervous system, degradation of coenzymes I and II by an enzyme from (McIlwain, H. & Rodnight, R.) 337
Cerebroside determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Cerebrospinal fluid of psychotic patients, cholinesterase in (Early, D. F., Hemphill, R. E., Reiss, M. & Brummel, E.) 552
Cetavlon *see* Cetyltrimethylammonium bromide (Hughes, D. E.) 325
Cetyltrimethylammonium bromide, acceleration of bacterial glutamic decarboxylase and glutaminase by (Hughes, D. E.) 325
Chick-heart explants grown *in vitro*, chemical composition of (Davidson, J. N. & Leslie, I.) xv
Chloride in foetal fluids of sheep during gestation (McDougall, E. I.) 397
Chlorine, micro- and ultramicro-determination in organic compounds (Judah, J. D.) 60
4-Chlorocatechol metabolites, orientation of conjugation of (Dodgson, K. S. & Williams, R. T.) 381
4-Chloro-2-hydroxyphenylglucuronide from rabbit urine (Dodgson, K. S. & Williams, R. T.) 381
4-Chloro-3-hydroxyphenylglucuronide from rabbit urine (Dodgson, K. S. & Williams, R. T.) 381
p-Chloromercuribenzoate, effect on succinic dehydrogenase and succinic oxidase systems (Slater, E. C.) 130
4-Chlororesorcinol metabolites, orientation of conjugation of (Dodgson, K. S. & Williams, R. T.) 381
Cholesterol determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Cholesterol, distribution of lipids in faeces of animals after feeding (Thomson, R. O.) xiv
Choline as phosphatide in wheat starch (Rooke, H. S., Lampitt, L. H. & Jackson, E. M.) 231
Cholinesterase activity of serum of newborn animals and of colostrum (McCance, R. A., Hutchinson, A. O., Dean, R. F. A. & Jones, P. E. H.) 493
Cholinesterase of serum and cerebrospinal fluid of psychotic patients (Early, D. F., Hemphill, R. E., Reiss, M. & Brummel, E.) 552
Cholinesterase of sera and erythrocytes of infant and adult blood (Jones, P. E. A. & McCance, R. A.) 464
Chromatographic separation of 2:4-dinitrophenyl amino-acids, use of buffered columns in (Blackburn, S.) 579
Chromatography, adsorption, separation of *N*-2:4-dinitrophenyl derivative of methyl esters of amino-acids by (Lowther, A. G. & Reith (Reich), W. S.) vi
Chromatography, displacement, on synthetic ion-exchange resins (Partridge, S. M.) 459
Chromatography of nucleic acids (Markham, R. & Smith, J. D.) 294
Chromatography of shell pigments (Comfort, A.) 199
Chromatography, paper, of the vitamin B_{12} group of factors (Lester Smith, E. & Cuthbertson, W. F. J.) xii
Chromatography, paper partition, application of estimation of microamounts of amino nitrogen (Woiwod, A. J.) 412
Chromatography, paper partition, of sugars in urine (Eastham, M.) xiii
Chromatography, partition, separation of penicillins by (Dobson, F. & Strand, S. W.) i
Chromatography, use for purifying potato eelworm hatching factor (Marrian, D. H., Russell, P. B., Todd, A. R. & Waring, W. S.) 524
Chromoproteins as pigments of higher molluscan shells (Comfort, A.) 199
Citrate, formation during oxidation of pyruvate by pigeon brain (Coxon, R. V., Liébecq, C. & Peters, R. A.) 320
Citrate, formation of manganese complex, by hydrogen peroxide and plant extracts (Kenten, R. H. & Mann, P. J. G.) 255
Citric acid, micro-estimation of (Weil-Malberbe, H. & Bone, A. D.) 377
*dextro-iso*Citric acid, optical rotation of molybdate complex of (Eggleston, L. V. & Krebs, H. A.) 578
Cleavage of rings by a cell-free enzyme system (Parr, W. H., Evans, R. A. & Evans, W. C.) xxix
Clostridium saccharobutyricum, Strain GR4, transformation of fumarate to oxaloacetate by (Cohen-Bazire, G. & Cohen, G. N.) 41
Clostridium welchii, glutamic decarboxylase and glutaminase from (Hughes, D. E.) 325

Coenzyme II, inactivation by central nervous system preparations (McIlwain, H. & Rodnight, R.) 337
Coenzyme of phosphoglucomutase (Stickland, L. H.) xxi
Coenzymes I and II, degradation by an enzyme from the central nervous system (McIlwain, H. & Rodnight, R.) 337
Collagen, amino-acid distribution of (Bowes, J. H. & Kenten, R. H.) 281
Collagen, preparation from ox hide (Bowes, J. H. & Kenten, R. H.) 281
Colloids, mobility in electrophoresis, differential method for detection of small differences (Hoch, H.) 285
Colostrum, cholinesterase activity of (McCance, R. A., Hutchinson, A. O., Dean, R. F. A. & Jones, P. E. H.) 493
Columns, buffered, use in the chromatographic separation of 2:4-dinitrophenyl amino-acids (Blackburn, S.) 579
Compositae, carbohydrates present in subterranean organs of (Bacon, J. S. D. & Edelman, J.) xxviii
Conchoporphyrin, identification of (Nicholas, R. E. H. & Comfort, A.) 208
Condensation index of teas during fermentation (Roberts, E. A. H.) 542
Congenital porphyria, stercobilin formation in (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) xvi
Conjugated phenol, fate in rabbit (Garton, G. A. & Williams, R. T.) 158
Conjugation of toluic acids and amides in rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 45
Conjugation, orientation of, in metabolites of 4-chlorocatechol and 4-chlororesorcinol (Dodgson, K. S. & Williams, R. T.) 381
Constitution and plant growth, effect of 2-phenoxyethylamine derivatives (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Convulsive treatment (electrical) of mental patients and effect on cholinesterase levels (Early, D. F., Hemphill, R. E., Reiss, M. & Brummel, E.) 552
Copper, effect on acid phosphatases (Abul-Fadl, M. A. M. & King, E. J.) 51
Copper, effect on succinic oxidase system (Slater, E. C.) 14
Copper in heart-muscle preparation (Slater, E. C.) 1
Coproporphyrin in molluscan shells (Nicholas, R. E. H. & Comfort, A.) 208
Coproporphyrin, occurrence in mycobacteria (Todd, C. M.) 386
Cord, umbilical, enzyme activities of blood in (Jones R. E. H. & McCance, R. A.) 464
Cortin excretion by mental patients (Reiss, M., Hemphill, R. E., Gordon, J. J. & Cook, E. R.) 574
Corynebacterium diphtheriae, growth factors for (Chattaway, F. W., Dolby, D. E., Hall, D. A. & Happold, F. C.) 592
Corynebacterium diphtheriae, prosthetic groups of cytochromes present in (Rawlinson, W. A. & Hale, J. H.) 247
Corynebacterium 'Q', substances able to replace oleic acid as growth factor of (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Coumarins and hatching of potato eelworm (Marrian, D. H., Russell, P. B. & Todd, A. R.) 533
Countercurrent distribution, use for separation of serine and threonine (Elliott, D. F.) 429
Cozymase, inactivation by central nervous system preparations (McIlwain, H. & Rodnight, R.) 337
Cozymase synthesis by *Lactobacillus arabinosus* (Hughes, D. E. & Williamson, D. H.) xxxvi
Cress seedlings, factors affecting synthesis of ascorbic acid in (Mapson, L. W., Cruickshank, E. M. & Chen, Yu-Tuan) 171
Crustacea, marine, astaxanthin distribution in (Goodwin, T. W. & Srisukh, S.) 268
Cucurbita pepo (squash), glutamic decarboxylase of (Hughes, D. E.) 325
*Cup plate assay of vitamin B_{12} (Cuthbertson, W. F. J. & Lloyd, J. T.) xvii
Cupric salts, effect on succinic dehydrogenase and succinic oxidase systems (Slater, E. C.) 130
Cyanide, effect on renal function (Nicholson, T. F.) 112
Cyanide, effect on succinic dehydrogenase and succinic oxidase systems (Slater, E. C.) 130
Cyanides, reaction of haems with (Keilin, J.) 440
*iso*Cyanides, reaction of haems with (Keilin, J.) 440
Cyanophenylglucuronides, *o*-, *m*- and *p*-, biosynthesis of (Smith, J. N.) 638
Cysteic acid decarboxylase activities of extract of rat liver (Sloane-Stanley, G. H.) 556
Cystophora cristata (hooded seals), vitamin A and liver fat of (Rodahl, K. & Davies, A. W.) 408
Cysts, eelworm hatching of (Calam, C. T., Raistrick, H. & Todd, A. R.) 513
Cytochrome, occurrence in mycobacteria (Todd, C. M.) 386
Cytochrome *b*, respiratory catalyst required for the reduction of cytochrome *c* by (Slater, E. C.) 14
Cytochrome *c*, respiratory catalyst required for reduction by cytochrome *b* (Slater, E. C.) 14
Cytochromes and succinic oxidase system (Slater, E. C.) 14
Cytochromes present in *Corynebacterium diphtheriae*, prosthetic groups of (Rawlinson, W. A. & Hale, J. H.) 247
Cytochrome-succinic dehydrogenase system, in heart muscle and in kidney (Slater, E. C.) 1
Cytoplasm, rabbit-liver, phospholipin metabolism in (Ada, G. L.) 422

Daucus carota (carrot), glutamic decarboxylase of (Hughes, D. E.) 325
DDT *see* 1:1:1-Trichloro-2:2-di(*p*-chlorophenyl)ethane
Deamination of glycine by α-radiation from disintegration of boron in a nuclear reactor (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 543
Deamination of nitrogenous compounds by X-radiation (Dale, W. M., Davies, J. V. & Gilbert ,C. W.) 93
Deamination of threonine in the rat, irreversibility of (Elliott, D. F. & Neuberger, A.) xiii
Decarboxylase, bacterial glutamic, acceleration by cetyltrimethylammonium bromide (Hughes, D. E.) 325
Decarboxylases, amino-acid, of rat liver (Sloane-Stanley, G. H.) 556
Defectives, mental, cholinesterase of (Early, D. F., Hemphill, R. E., Reiss, M. & Brummel, E.) 552
Degeneration in central nervous system and vitamin A deficiencies in rats (Coetzee, W. H. K.) 628
Degeneration, Wallerian, lipid content of peripheral nerve during (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Dehydrogenase (succinic)-cytochrome system in heart muscle and in kidney (Slater, E. C.) 1
Dehydrogenase, succinic, effect of various inhibitors on (Slater, E. C.) 130
7-Dehydrosteroid in the frog (Morton, R. A. & Rosen, D. G.) 612
Dental enamel, human, nitrogen in (Anderson, D. J.) 31
Detoxication, characterization of phenylglucuronide (Garton, G. A., Robinson, D. & Williams, R. T.) 65
Detoxication; fates of phenol, phenylsulphuric acid and phenylglucuronide in relation to metabolism of benzene in rabbit (Garton, G. A. & Williams, R. T.) 158
Detoxication, studies in; biosynthesis of cyanophenylglucuronides (Smith, J. N.) 638
Di-2-chloroethyl sulphide and protein, antisera against complexes of (Fleming, D. S., Moore, A. M. & Butler, G. C.) 546
Dicyan-haem, resemblance to dihydroxylhaem (Keilin, J.) 448
Diet, effect on intestinal phosphatase of rat (Lawrie, N. R. & Yudkin, J.) 438

Diet, fatty acids of, effect on composition and turnover rates of liver phospholipins (Campbell, I. G., Olley, J. & Blewett, M.) 105
Diets, native, possible importance of locusts as source of vitamin A (Goodwin, T. W.) 472
Dietary protein, influence of levels on experimental liver injury in dogs (Bardawill, C. J. & Gornall, A. G.) iii
Diffusiometer, Gouy, polydisperse material in (Ogston, A. G.) 189
Diffusion constant, arithmetic mean, calculation for polydisperse materials (Ogston, A. G.) 189
Diffusion of polysaccharides from *Penicillium luteum* (Ogston, A. G.) 189
Digestibility of nitrogen of potato (Chick, A. & Slack, E. B.) 211
Dihydrocoenzymes and coenzyme-inactivating enzyme (McIlwain, H. & Rodnight, R.) 337
Dihydroxyl-haem, properties and nature (Keilin, J.) 448
3:4-Dihydroxyphenylalanine decarboxylase activities of extracts of rat liver and kidney (Sloane-Stanley, G. H.) 556
2:3-Dimercaptopropanol, effect on succinic dehydrogenase and succinic oxidase systems (Slater, E. C.) 130
2:3-Dimercaptopropanol, effect on succinic oxidase system (Slater, E. C.) 14
Dimethylacetothetin, mobility of methyl group in (Challenger, F. & Fothergill, P.) xxvii
N-2:4-Dinitrophenyl amino-acids, use of buffered columns in chromatographic separation of (Blackburn, S.) 579
N-2:4-Dinitrophenyl derivatives of methyl esters of amino-acids, separation by adsorption chromatography (Lowther, A. G. & Reith (Reich), W. S.) vi
Disaggregating enzyme of *Byssochlamys fulva* (Beaven, G. H. & Brown, F.) 221
Displacement chromatography on synthetic ion-exchange resins (Partridge, S. M.) 459
Diurnal variation of 17-ketosteroid excretion in mental patients (Reiss, M., Hemphill, R. E., Gordon, J. J. & Cook, E. R.) 574
Dog, experimental liver injury, influence of dietary protein levels on (Bardawill, C. J. & Gornall, A. G.) iii
Donnan equilibrium between maternal serum and amniotic fluid (McDougall, E. I.) 397
Dosimetry of reactions in nuclear reactors (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 543

'Early lag', influence of amino-acids, and compounds in the Krebs oxidation cycle (Dagley, S., Dawes, E. A. & Morrison, G. A.) xxvi
'Early lag' phase of *Aerobacter aerogenes* (Dagley, S., Dawes, E. A. & Morrison, G. A.) xxv
Eclepic acid, eelworm hatching factor (Calam, C. T., Todd, A. R. & Waring, W. S.) 520
Eclepic acid, nature of (Marrian, D. H., Russell, P. B., Todd, A. R. & Waring, W. S.) 524
Eelworm, potato, hatching factor (Calam, C. T., Raistrick, H. & Todd, A. R.) 513; (Calam, C. T., Todd, A. R. & Waring, W. S.) 520; (Marrian, D. H., Russell, P. B., Todd, A. R. & Waring, W. S.) 524; (Russell, P. B., Todd, A. R. & Waring, W. S.) 528, 530; (Marrian, D. H., Russell, P. B. & Todd, A. R.) 533
Egg albumin, isolation of glucosamine and histidine by displacement chromatography from hydrolysate (Partridge, S. M.) 459
Eggs, hen, acid-soluble phosphorus in, during development of embryo (Ramsay, W. N. M.) ix
Eggs, hen, iron metabolism during development of embryo (Ramsay, W. N. M.) viii
Eggs, lobster, astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Eggs, locust, β-carotene in (Goodwin, T. W. & Srisukh, S.) 263
Elaidic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Elastin, amino-acid distribution of (Bowes, J. H. & Kenten, R. H.) 281
Elastin, preparation from ligamentum nuchae (Bowes, J. H. & Kenten, R. H.) 281
Electroconvulsive treatment of mental patients and effect on cholinesterase levels (Early, D. F., Hemphill, R. E., Reiss, M. & Brummel, E.) 552
Electrolysis, micro-, of water, apparatus for (Bentley, R.) 591
Electrolyte mixtures, fractionation by ion-exchange resins (Davies, C. W.) 38
Electrolytes, effect on molecular weight of tropomyosin (Adair, G. S., Bailey, K. & Tsao, T. C.) v
Electrophoresis, mobility of colloids in differential method for detection of small differences (Hoch, H.) 285
Embryo, acid-soluble phosphorus in hen eggs during development of (Ramsay, W. N. M.) ix
Embryo, iron metabolism of hen eggs during development of (Ramsay, W. N. M.) viii
Embryo muscle of calf intracellular fluid of (Gordon, A. H.) 99
Enamel, human dental, nitrogen in (Anderson, D. J.) 31
Energy of activation of the tryptophanase-tryptophan indole reaction (Happold, F. C. & Morrison, G. A.) xx
Enzyme activities in blood of infants and adults (Jones, P. E. H. & McCance, R. A.) 464
Enzyme, degradation of coenzymes I and II by (McIlwain, H. & Rodnight, R.) 337
Enzyme, disaggregating, in *Byssochlamys fulva* (Beaven, G. H. & Brown, F.) 221
Enzyme preparation from *Helianthus tuberosus* L. (Jerusalem artichoke), action on the carbohydrates present in the tubers (Edelman, J. & Bacon, J. S. D.) xxix
Enzyme system, cell-free, which accomplishes ring cleavage, preparation and properties of (Parr, W. H., Evans, R. A. & Evans, W. C.) xxix
Enzymes, pectic, of *Byssochlamys fulva* (Beaven, H. G. & Brown, F.) 221
Erucic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Erythrocytes, acid phosphatases of (Abul-Fadl, M. A. M. & King, E. J.) 51
Escherichia coli, biosynthesis of nicotinamide by (Ellinger, P. & Abdel Kader, M. M.) 276
Escherichia coli, factors influencing polysaccharide content of (Dagley, S. & Dawes, E. A.) xxvi
Escherichia coli, glutamic decarboxylase and glutaminase from (Hughes, D. E.) 325
Escherichia coli, nucleic acid metabolism of (Stephenson, M. & Moyle, J. M.) vii
Escherichia coli, polysaccharide content of (Dagley, S. & Dawes, E. A.) 331
Ethanolamine, labelled, ^{15}N content of porphyrins following feeding (Muir, H. M. & Neuberger, A.) 163
Ewes fed during pregnancy, composition of allantoic and amniotic fluids during gestation (McDougall, E. I.) 397
Excretion of DL-thyroxine labelled with radioactive iodine (Clayton, J. C., Free, A. A., Page, J. E., Somers, G. F. & Woollett, E. A.) xx
Explants, chick-heart, grown *in vitro*, chemical composition of (Davidson, J. N. & Leslie, I.) xv
Eyes, frog, vitamin A in (Morton, R. A. & Rosen, D. G.) 612
Eyes, locust, carotenoids of (Goodwin, T. W. & Srisukh, S.) 263

Faeces of normal and cholesterol-fed animals, distribution of lipids in (Thomson, R. O.) xiv
Fat determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500

Fat, liver, of seals (Rodahl, K. & Davies, H. W.) 408
Fat, seasonal variation in frog (Morton, R. A. & Rosen, D. G.) 612
Fat synthesis in mammary gland, possible mechanism for (Folley, S. J. & French, T. H.) 270
Fatty acid determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Fatty acids, long-chain unsaturated, as essential bacterial growth factors (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Fatty tissues of locusts, β-carotene in (Goodwin, T. W. & Srisukh, S.) 263
Fermentation process in tea manufacture (Roberts, E. A. H.) 538
Fin-whale milk, vitamin A and kitol in (Barua, R. K. & Morton, R. A.) 308
Fish-liver oils, vitamin A potencies of (Coetzee, W. H. K.) 628
Fissurellidae, pigments of (Comfort, A.) 199
Flame photometer, photoelectric (Domingo, W. R. & Klyne, W.) 400
Flora, intestinal, of rats, and nicotinamide metabolism Ellinger, P. & Abdel Kader, M. M.) 276
Fluid, intracellular, of calf embryo muscle (Gordon, A. H.) 99
Foetal fluids of sheep, composition during gestation (McDougall, E. I.) 397
Formamide and formic acid, hydrolysis by rabbit-liver preparation (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Formamide and formic acid, metabolism in rabbits (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Fractionation of weak electrolyte mixture by ion-exchange resins (Davies, C. W.) 38
Frog (*Rana temporaria*), carotenoids, vitamin A and 7-dehydrosteroid in (Morton, R. A. & Rosen, D. G.) 612
Fructosans, renal clearance of (Beattie, J. & Corcoran, A. C.) xv
Fructosans, structures of (Bell, D. J. & Palmer, A.) xiv
Fruits of walnut, apparent vitamin C in (Wokes, F. & Melville, R.) 343
Fumarate, and oxidation of pyruvate (Coxon, R. V., Liébecq, C. & Peters, R. A.) 320
Fumarate, transformation to oxaloacetate by *Clostridium saccharobutyricum*, Strain GR4 (Cohen-Bazire, G. & Cohen, G. N.) 41
Furan derivatives as artificial hatching agents for potato eelworm (Russell, P. B., Todd, A. R. & Waring, W. S.) 530

Galactose, neutral polysaccharide containing, from *Penicillium luteum* (Freeman, G. G. & Macpherson, C. S.) 179
Gasometric methods, use for examining diffusion of hydrogen ions through mucosa (Terner, C.) 150
Gastric acidity, reduction by back-diffusion of hydrogen ions through the mucosa (Terner, C.) 150
Gastric mucosa, transport of radioactive sodium and potassium ions through (Crane, E. E. & Davies, R. E.) xxiii
Gastrophilus intestinalis larvae, metabolism of (Laser, H. & Rothschild, Lord) 598
Germinating oat and rape seed, activity of substituted β-phenoxyethylamines against (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Germination of spore-bearing aerobes (Hills, G. M.) 353, 363
Gestation, composition of foetal fluids of sheep during (McDougall, E. I.) 397
Gland, mammary bovine, utilization of acetic acid by (McClymont, G. L.) i
Globin, denatured, effect on succinic dehydrogenase and succinic oxidase systems (Slater, E. C.) 130
Globulins of potato juice (Chick, H. & Slack, E. B.) 211
δ-Gluconolactone as product of action of notatin on glucose (Bentley, R. & Neuberger, A.) 584
Glucosamine, *N*-acetyl, breakdown by strains of streptococci (Rogers, H. J.) 87
Glucosamine, isolation from a protein hydrolysate (Partridge, S. M.) 459
Glucose, acidic polysaccharide containing, from *Penicillium luteum* (Freeman, G. C. & Macpherson, C. S.) 179
Glucose, effect on the metabolism of kidney slices from adult and newborn rats (Robinson, J. R.) 68
Glucose, effect on metabolism of rat mammary gland (Folley, S. J. & French, T. H.) 270
Glucose, oxidation by notatin (Bentley, R. & Neuberger, A.) 584
Glucuronic acid, conjugation of toluic acids and amides with, in rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 45
Glucuronic acid, conjugation of xylene metabolites with (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 241
β-Glucuronidase, relationship to the glucuronide-synthesizing system in the mouse (Karunairatnam, M. C., Kerr, L. M. H. & Levvy, G. A.) 496
Glucuronide-synthesizing system in the mouse, relationship to β-glucuronidase (Karunairatnam, M. C., Kerr, L. M. H. & Levvy, G. A.) 496
Glucuronides from adrenaline and protocatechuic aldehyde in rabbit (Dodgson, K. S. & Williams, R. T.) 381
Glucuronides from rabbit urine after feeding 4-chlorocatechol and 4-chlororesorcinol (Dodgson, K. S. & Williams, R. T.) 381
Glucuronides of cyanophenols, biosynthesis in rabbit (Smith, J. N.) 638
Glutamic acid peptides as growth factors for *Corynebacterium diphtheriae* (Chattaway, F. W., Dolby, D. E., Hall, D. A. & Happold, F. C.) 592
Glutamic decarboxylase, bacterial, acceleration by cetyltrimethylammonium bromide (Hughes, D. E.) 325
Glutaminase, bacterial, acceleration by cetyltrimethylammonium bromide (Hughes, D. E.) 325
Glutathione, effect on succinic dehydrogenase and succinic oxidase systems (Slater, E. C.) 130
Glycerophosphate in wheat starch (Rooke, H. S., Lampitt, L. H. & Jackson, E. M.) 231
Glycerophosphates, α- and β-, hydrolysis by acid phosphatases (Abui-Fadl, M. A. M. & King, E. J.) 51
Glycine as terminal amino-acid of insulin (Sanger, F.) 563
Glycine, conjugation of toluic acids and amides with, in rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 45
Glycine, conjugation of xylene metabolites with (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 241
Glycine, conversion of acetate to in rat (Arnstein, H. R. V. & Neuberger, A.) iii
Glycine, deamination by α-rays (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 93, 543
Glycine, labelled, ^{15}N content of porphyrins following feeding (Muir, H. M. & Neuberger, A.) 163
Glycine, reaction with mustard gas (Fleming, D. S., Moore, A. M. & Butler, G. C.) 546
Glycogen, distribution in rabbit liver (Nys, A., Aubert, X. Duve, C. de) 245
Glyoxalase activity in erythrocytes of infants and adults (Jones, P. E. H. & McCance, R. A.) 464
Gouy diffusiometer, polydisperse material in (Ogston, A. G.) 189
Granules from rabbit-liver cytoplasm, analysis of (Ada, G. L.) 422
Growth factors, bacterial, long-chain unsaturated fatty acids as (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417

Growth factors essential for *Lactobacillus leichmanii* 313 and *Leuconostoc citrovorum*, microbiological assay of (Lees, K. A. & Emery, W. B.) ii
Growth factors for *Corynebacterium diphtheriae* (Chattaway, F. W., Dolby, D. E., Hall, D. A. & Happold, F. C.) 592
Growth of plants, relationship between constitution and effect of chemical compounds (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Growth test, comparison with histological method for determination of vitamin A (Coetzee, W. H. K.) 628
Guinea pig-liver extract, 3:4-dihydroxyphenylalanine oxidase activity of (Sloane-Stanley, G. H.) 556

Haematin compounds, and succinic oxidase system (Slater, E. C.) 14
Haematin compounds in succinic oxidase preparations (Slater, E. C.) 1
Haematinic acid, dissociation constant, synthesis and ultra-violet absorption of (Muir, H. M. & Neuberger, A.) 163
Haematohaem, dihydroxyl compounds of (Keilin, J.) 448
Haemin of rabbits fed glycine and ethanolamine containing ^{15}N (Muir, H. M. & Neuberger, A.) 163
Haemochromogen, alkaline (Keilin, J.) 448
Haemolytic substance, effect on succinic oxidase activity (Slater, E. C.) 8
Haems, dihydroxyl, magnetic susceptibility of (Keilin, J.) 448
Haems of *Corynebacterium diphtheriae* (Rawlinson, W. A. & Hale, J. H.) 247
Haems, reaction with cyanides and *iso*cyanides (Keilin, J.) 440
Halichoerus grypus (Atlantic seal), vitamin A and liver fat of (Rodahl, K. & Davies, A. W.) 408
Haliotis cracherodii, indigoid pigments of (Comfort, A.) 204
Hatching agent, artificial, for potato eelworm (Calam, C. T., Todd, A. R. & Waring, W. S.) 520
Hatching factor, potato eelworm (Calam, C. T., Raistrick, H. & Todd, A. R.) 513; (Calam, C. T., Todd, A. R. & Waring, W. S.) 520; (Marrian, D. H., Russell, P. B., Todd, A. R. & Waring, W. S.) 524; (Russell, P. B., Todd, A. R. & Waring, W. S.) 528; 530; (Marrian, D. H., Russell, P. B. & Todd, A. R.) 533
Heart explants, chick, grown *in vitro*, chemical composition of (Davidson, J. N. & Leslie, I.) xv
Heart-muscle preparations, succinic oxidase system (Slater, E. C.) 8, 14
Heart-muscle, succinic dehydrogenase-cytochrome system in (Slater, E. C.) 1
Heart, rat, enzyme activities and effect of vitamins (Bhagvat, K. & Devi, P.) 32
Helianthus tuberosus L. (Jerusalem artichoke), enzyme preparation from action on carbohydrates present in the tubers (Edelman, J. & Bacon, J. S. D.) xxix
Hen eggs, acid-soluble phosphorus in, during development of embryo (Ramsay, W. N. M.) ix
Hen eggs, iron metabolism during development of embryo (Ramsay, W. N. M.) viii
Hepatopancreas of lobster, β-carotene in (Goodwin, T. W. & Srisukh, S.) 268
Herbicidal activity of phenoxyethylamines (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Heterodera rostochiensis Wollenweber *see* Potato eelworm
Hexamethylenetetramine, herbicidal activity of derivatives (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Hexose content of cress seedlings, and ascorbic acid content Mapson, L. W., Cruickshank, E. M. & Chen, Yu-Tuan) 171
Hibernation, carotenoids in (Morton, R. A. & Rosen, D. G.) 612
Histidine as an essential metabolite of *Bacterium aerogenes* (Devi, P. & Higginbottom, C.) 391
Histidine, isolation from a protein hydrolysate (Partridge, S. M.) 459
Histological method for the biological estimation of vitamin A (Coetzee, W. H. K.) 628
Homarus vulgaris Edw., astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Hormones, anterior pituitary, and mammary gland metabolism (Folley, S. J. & French, T. H.) 270
Horse-radish root extracts, oxidation of manganese by (Kenten, R. H. & Mann, P. J. G.) 255
Hydrogen ions, back diffusion through the mucosa, reduction of gastric acidity by (Terner, C.) 150
Hydrogen peroxide, and oxidation of manganese by plant extract (Kenten, R. H. & Mann, P. J. G.) 255
Hydrogen peroxide, effect on succinic oxidase system (Slater, E. C.) 14
Hydrogen peroxide, oxidation of manganese by plant extracts in the presence of (Kenten, R. H. & Mann, P. J. G.) 255
Hydrolysis of phenylglucuronide (Garton, G. A., Robinson, D. & Williams, R. T.) 65
Hydrolysis of proteins (Flowers, H. M. & Reith (Reich), W. S.) xx
Hydroxy-amines, respiration of rat-liver slices in presence of (Long, C.) xi
Hydroxyamino-acids, separation from proteins and hydrolysates (Elliott, D. F.) 429
2-Hydroxy-2′-glycinodiethyl sulphide from mustard gas and ethyl aminoacetate (Fleming, D. S., Moore, A. M. & Butler, G. C.) 546
Hydroxylamine, reduction by *Clostridium saccharobutyricum*, strain GR4 (Cohen-Bazire, G. & Cohen, G. N.) 41
Hydroxylysine, in calf embryo muscle (Gordon, A. H.) 99
Hypodermis of lobster and prawn, astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Hypoproteinaemia, plasma and tissue protein regeneration in renal disease with (Herbert, F. K.) xxii

Imino ethers from amino-acid esters (Elliott, D. F.) 429
Inactivation of serum alkaline phosphatase by adrenaline and related substances (Anderson, A. B.) xxxvi
Inanition, carotenoids in (Morton, R. A. & Rosen, D. G.) 612
Indicator yellow and retinene, (Ball, S., Collins, F. D., Dalvi, P. D. & Morton, R. A.) 304
Indigoid pigments of *Haliotis cracherodii* (Comfort, A.) 204
Indole reaction, tryptophanase-tryptophan, energy of activation of (Happold, F. C. & Morrison, G. A.) xx
Indophenol, reaction with apparent vitamin C (Wokes, F. & Melville, R.) 343
Infants, enzyme activities in blood of (Jones, P. E. H. & McCance, R. A.) 464
Inhibition of plant phosphorylases by β-amylase (Porter, H. K.) xxxvii
Inhibitors, action on the system of enzymes which catalyse the aerobic oxidation of succinate (Slater, E. C.) 8
Inhibitors of succinic dehydrogenase and succinic oxidase systems (Slater, E. C.) 130
Inorganic phosphate, formation from adenosinetriphosphate on storage (Bailey, K.) 479
Inorganic pyrophosphate, formation from adenosinetriphosphate on storage (Bailey, K.) 479
Insulin, terminal peptides of (Sanger, F.) 563
Integument of locusts, carotenoids of (Goodwin, T. W. & Srisukh, S.) 263
Interference of cations in flame photometer (Domingo, W. R. & Klyne, W.) 400
Intestinal flora of rats and nicotinamide metabolism (Ellinger, P. & Abdel Kader, M. M.) 276
Intestinal phosphatase of rat, effect of diet on (Lawrie, N. S. & Yudkin, J.) 438
Intracellular fluid of calf embryo muscle (Gordon, A. H.) 99

Intracellular mode of action of sulphonamide derivatives (Bell, E. A., Cocker, W. & O'Meara, R. A. Q.) 373
Inulins, structure of (Bell, D. J. & Palmer, A.) xiv
Involution in the rat, respiration and acid production of the mammary tissue during (Folley, S. J. & French, T. H.) 270
Iodinated casein, alleged formation of vitamin A from β-carotene treated with (Cama, H. R. & Goodwin, T. W.) 317
Iodine, radioactive, absorption and excretion of DL-thyroxine labelled with (Clayton, J. C., Free, A. A., Page, J. E., Somers, G. F. & Wollett, E. A.) xx
o-Iodosobenzoate, effect on succinic dehydrogenase and succinic oxidase systems (Slater, E. C.) 130
Ion-exchange resins, displacement chromatography on (Partridge, S. M.) 459
Ion-exchange resins, fractionation of weak electrolyte mixtures (Davies, C. W.) 38
Ionic yields in radiation processes, calculation of (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 93
Irisin, structure of (Bell, D. J. & Palmer, A.) xiv
Iron, effect on acid phosphatases (Abul-Fadl, M. A. M. & King, E. J.) 51
Iron metabolism of hen eggs during development of embryo (Ramsay, W. N. M.) viii

Juglans regia, (walnut), apparent vitamin C in (Wokes, F. & Melville, R.) 343
Juglone-like compound from apparent vitamin C (Wokes, F. & Melville, R.) 343

Kephalin determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
α-Ketoglutarate, formation during oxidation of pyruvate by pigeon brain (Coxon, R. V., Liébecq, C. & Peters, R. A.) 320
Kidney, dog, perfusion *in situ* (Nicholson, T. F.) 112
Kidney lesions, unilateral, effect on renal function (Nicholson, T. F.) 112
Kidney, mouse, glucuronide-synthesizing system in (Karunairatnam, M. C., Kerr, L. M. H. & Levvy, G. A.) 496
Kidney of frog, vitamin A in (Morton, R. A. & Rosen, D. G.) 612
Kidney preparations, succinic oxidase system (Slater, E. C.) 14
Kidney, rat, 3:4-dihydroxyphenylalanine decarboxylase activity of (Sloane-Stanley, G. H.) 556
Kidney, rat, enzyme activities and effect of vitamins in (Bhagvat, K. & Devi, P.) 32
Kidney slices from adult and newborn rats, effects of glucose and calcium on (Robinson, J. R.) 68
Kidney, succinic dehydrogenase-cytochrome system in (Slater, E. C.) 1
Kitol esters, preparation from whale liver oil (Barua, R. K. & Morton, R. A.) 308
Krebs oxidation cycle, compounds in, influence on 'early lag' (Dagley, S., Dawes, E. A. & Morrison, G. A.) xxvi
Krill, preformed vitamin A in (Kon, S. K. & Thompson, S. Y.) xxxi

Lactate, formation from *N*-acetylglucosamine by streptococci (Rogers, H. J.) 87
Lactation in the rat, respiration and acid production of mammary tissue during (Folley, S. J. & French, T. H.) 270
Lactones of furan derivatives and potato eelworm hatching factor (Russell, P. B., Todd, A. R. & Waring, W. S.) 530
Lactose, estimation in presence of other sugars (Malpress, F. H. & Morrison, A. B.) 455
Lactobacillus arabinosus, cozymase synthesis by (Hughes, D. E. & Williamson, D. H.) xxxvi
Lactobacillus casei, improved medium for microbiological assays with (Kodicek, E. & Mistry, S. P.) xxxv
Lactobacillus leichmanii, microbiological assay of growth factors essential for (Lees, K. A. & Emery, W. B.) ii
Laevulinic acid derivatives and hatching factor of potato eelworm (Russell, P. B., Todd, A. R. & Waring, W. S.) 530
Lag phase of *Aerobacter aerogenes* (Dagley, S., Dawes, E. A. & Morrison, G. A.) xv
Larvae, *Gastrophilus intestinalis*, metabolism of (Laser, H. & Rothschild, Lord) 598
Lauric acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Leaves of walnut, apparent vitamin C in (Wokes, F. & Melville, R.) 343
Lecithin, determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Leuconostoc citrovorum, microbiological assay of growth factors essential for (Lees, K. A. & Emery, W. B.) ii
Levan, grass, structure of (Bell, D. J. & Palmer, A.) xiv
Ligamentum nuchae, preparation of elastin from (Bowes, J. H. & Kenten, R. H.) 281
Linoleic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Linolenic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Lipid content of peripheral nerve during Wallerian degeneration (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Lipid determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Lipid in rabbit liver (Ada, G. L.) 422
Lipids, distribution in faeces of normal and cholesterol-fed animals (Thomson, R. O.) xiv
Lipids of rats, on diets containing pure fatty acids (Campbell, I. G., Olley, J. & Blewett, M.) 105
Lipids of whale liver (Barua, R. K. & Morton, R. A.) 308
Liver fat of seals (Rodahl, K. & Davies, A. W.) 408
Liver injury in dogs, experimental, influence of dietary protein levels on (Bardawill, C. J. & Gornall, A. G.) iii
Liver, mouse, glucuronide-synthesizing system in (Karunairatnam, M. C., Kerr, L. M. H. & Levvy, G. A.) 496
Liver of frog, vitamin A in (Morton, R. A. & Rosen, D. G.) 612
Liver oils, fish, vitamin A potencies of (Coetzee, W. H. K.) 628
Liver oil, whale, analysis of (Barua, R. K. & Morton, R. A.) 308
Liver phospholipins, effect of dietary oleic and palmitic acid on the composition and turnover rates of (Campbell, I. G., Olley, J. & Blewett, M.) 105
Liver, rabbit, distribution of glycogen in (Nys, A., Aubert, X. & Duve, C. de) 245
Liver, rat, amino-acid decarboxylases of (Sloane-Stanley, G. H.) 556
Liver, rat, enzyme activities and effect of vitamins (Bhagvat, K. & Devi, P.) 32
Liver, rat, vitamin concentrations in (Bhagvat, K. & Devi, P.) 32
Liver slices, rat, respiration in presence of aliphatic amines, hydroxy-amines and quaternary ammonium salts (Long C.) xi
Lobster, astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Locusta migratoria migratorioides R. & F., carotenoid distribution in (Goodwin, T. W.) 472
Locusta migratoria migratorioides R. & F., carotenoids of the integument of (Goodwin, T. W. & Srisukh, S.) 263
Locusts, biochemistry of (Goodwin, T.) 472
Locusts, carotenoids of integument of (Goodwin, T. W. & Srisukh, S.) 263

Logarithmic dose response curves, potency calculation for use with (Basil, B.) xvii
Lymph nodes, preparation of reticular tissue from (Bowes, J. H. & Kenten, R. H.) 281

Maclurin, effect on capillary resistance in guinea pig (Zilva, S. S.) 79
Magnesium, effect on acid phosphateses (Abul-Fadl, M. A. M. & King, E. J.) 51
Magnesium in foetal fluids of sheep during gestation (McDougall, E. I.) 397
Magnetic susceptibility of dihydroxyl haems (Keilin, J.) 448
Malate, fermentation by *Clostridium saccharobutyricum*, strain GR4 (Cohen-Bazire, G. & Cohen, G. N.) 41
Mammals, metabolism of alveolar bone in (Weidmann, S. & Rogers, H. J.) xxv
Mammary gland, bovine, utilization of acetic acid by (McClymont, G. L.) i
Mammary gland, intermediary metabolism (Folley, S. J. & French, T. H.) 117, 270
Manganese, oxidation by plant extracts in the presence of hydrogen peroxide (Kenten, R. H. & Mann, P. J. G.) 255
Manic-depressive patients, ketosteroid excretion of (Reiss, M., Hemphill, R. E., Gordon, J. J. & Cook, E. R.) 574
Manometric method for determination of respiratory quotients (Laser, H. & Rothschild, Lord) 598
Marine crustacea, astaxanthin distribution in (Goodwin, T. W. & Srisukh, S.) 268
Matrix, organic, of bone (Rogers, H. J.) xxiv
Mechanism of bacterial oxidation of aromatic compounds (Parr, W. H., Evans, R. A. & Evans, W. C.) xxix
Medium, phosphate buffered, for uses with kidney slices (Robinson, J. R.) 68
Mental defectives, cholinesterase of (Early, D. F., Hemphill, R. E., Reiss, M. & Brummel, E.) 552
Mental patients, urinary steroid excretion of (Reiss, M. Hemphill, R. E., Gordon, J. J. & Cook, E. R.) 574
Mercurialis perennis L., micro-estimation and origin of methylamine in (Cromwell, B. T.) 84
Mesoporphyrin of rabbits fed glycine and ethanolamine containing ^{15}N (Muir, H. M. & Neuberger, A.) 163
Metabolism, intermediary, of mammary gland (Folley, S. J. & French, T. H.) 117, 270
Metabolism of the alveolar bone of mammals (Weidmann, S. & Rogers, H. J.) xxv
Methyl esters of amino-acids, *N*-2:4-dinitrophenyl derivatives of, separation by adsorption chromatography (Lowther, A. G. & Reith (Reich), W. S.) vi
Methyl group in dimethylacetothetin, mobility of (Challenger, F. & Fothergill, P.) xxvii
Methylamine, micro-estimation and origin in *Mercurialis perennis* L. (Cromwell, B. T.) 84
Methylene blue, reduction by succinate (Slater, E. C.) 1
Methylethanolamine as a probable precursor of methylamine (Cromwell, B. T.) 84
Methylethylmaleic acid, dissociation constant, synthesis, ultraviolet absorption of (Muir, H. M. & Neuberger, A.) 163
N-Methyl-2-pyridone-3-(and -5-)carboxylamide in human urine, determination of (Holman, W. I. M. & Lange, D. J. de) 559
Microbiological assay of growth factors essential for *Lactobacillus leichmanii* and *Leuconostoc citrovorum* (Lees, K. A. & Emery, W. B.) ii
Microbiological assay of substances able to replace oleic acid as growth factor of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Microbiological assays with *Lactobacillus casei*, improved medium for (Kodicek, E. & Mistry, S. P.) xxxv
Micro-electrolysis of water, apparatus for (Bentley, R.) 591
Microsomes from rabbit-liver cytoplasm, analysis of (Ada, G. L.) 422
Milk, effect of thyroxine and thiouracil on water-soluble vitamins in (Chanda, R., McNaught, M. L. & Owen, E. C.) xix
Milk of fin whale (Barua, R. K. & Morton, R. A.) 308
Mobilization, alleged, of vitamin A by adrenaline (Goodwin, T. W. & Wilson, A. A.) 370
Mobility of colloids in electrophoresis, differential method for detection of small differences (Hoch, H.) 285
Mobility of methyl group in dimethylacetothetin, (Challenger, F. & Fothergill, P.) xxvii
Modulators, photopic, and products from vitamin A and retinene (Ball, S. & Morton, R. A.) 298
Molecular weight of tropomyosin, effect of electrolytes on (Adair, G. S., Bailey, K. & Tsao, T. C.) v
Molluscan shells, acid-soluble pigments of (Comfort, A.) 199, 204, 208
Molybdate complex of *dextro-iso*citric acid, optical rotation of (Eggleston, L. V. & Krebs, H. A.) 578
Mono-amine oxidase activity of placenta and uterus (Thompson, R. H. S. & Tickner, A.) 125
Monoaminophospholipin determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 204, 500
Mould, *Byssochlamys fulva*, pectic enzymes of (Beaven, G. H. & Brown, F.) 221
Mouse, glucuronide-synthesizing system in (Karunairatnam, M. C., Kerr, L. M. H. & Levvy, G. A.) 496
Mucosa, back-diffusion of hydrogen ions through (Terner, C.) 150
Mucosa, gastric, transport of radioactive sodium and potassium ions through (Crane, E. E. & Davies, R.E.) xxiii
Muscle, calf embryo, intracellular fluid (Gordon, A. H.) 99
Muscle, content of adenosinediphosphate (Bailey, K.) 479
Muscle, heart, activity of succinic oxidase system (Slater, E. C.) 8
Muscle, heart, succinic dehydrogenase-cytochrome system in (Slater, C. E.) 1
Mustard gas *see* Di-2-chloroethyl sulphide
Mycobacteria, occurrence of cytochrome and coproporphyrin (Todd, C. M.) 386
Myelin, lipid determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Myelin substance, degeneration in vitamin A deficiency (Coetzee, W. H. K.) 628
Myokinase in assay of adenosinediphosphate and adenosinetriphosphate (Bailey, K.) 479
Myosin adenosinetriphosphatase in assay of adenosinetriphosphate and adenosinediphosphate (Bailey, K.) 479
Myristic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417

Nephrops norvegicus L., astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Nerve, peripheral, lipid content during Wallerian degeneration (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Nerve, sciatic, of cat, lipids of (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Nervous system, central, degeneration in, and vitamin A deficiencies in rats (Coetzee, W. H. K.) 628
Nervous system, central, degradation of coenzymes I and II by an enzyme from (McIlwain, H. & Rodnight, R.) 337
Neurospora crassa, amino-acid oxidase (Bender, A. E., Krebs, H. A. & Horowitz, N. H.) xxi
Newborn animals, cholinesterase activity of serum of (McCance, R. A., Hutchinson, A. O., Dean, R. F. A. & Jones, P. E. H.) 493

Nicotinamide glycosides and coenzyme-inactivating enzyme (McIlwain, H. & Rodnight, R.) 337
Nicotinamide liberation during inactivation of coenzyme II (McIlwain, H. & Rodnight, R.) 337
Nicotinamide metabolism, effect of tryptophan (Ellinger, P. & Abdel Kader, M. M.) 276
Nicotinic acid as an essential metabolite of *Bacterium aerogenes* (Devi, P. & Higginbottom, C.) 391
Nicotinic acid metabolism (Holman, W. I. M. & Lange, D. J. de) 559
Nicotinic acid, modified chemical estimation of (Hughes, D. E.) xxxiv
Ninhydrin and destruction of amino-acids on chromatograms (Woiwood, A. J.) 412
Nisin, preparation of (Berridge, N. J.) 486
Nitrogen, amino, estimation of micro amounts and its application to paper partition chromatography (Woiwod, A. J.) 412
Nitrogen, distribution of ^{15}N in the ring system of porphyrins (Muir, H. M. & Neuberger, A.) 163
Nitrogen in human dental enamel (Anderson, D. J.) 31
Nitrogen, loss of, by rat kidney slices (Robinson, J. R.) 68
Nitrogen of substances from connective tissue (Bowes, J. H. & Kenten, R. H.) 281
Nitrogenous bases of potato juice (Chick, H. & Slack, E. B.) 211
Nitrogenous compounds, deamination of, by X-radiation (Dale, W. M., Davies, J. K. & Gilbert, C. W.) 93
Nitrogenous substances in potato, distribution and nutritive value of (Chick, H. & Slack, E. B.) 211
Nomadacris septemfasciata, astaxanthin in (Goodwin, T. W. & Srisukh, S.) 263
Non-protein nitrogen in foetal fluids of sheep during gestation (McDougall, E. I.) 397
Non-protein nitrogen of potato (Chick, H. & Slack, E.B.) 211
Notatin, mechanism of action of (Bentley, R. & Neuberger, A.) 584
Nuclear reactor, deamination of glycine in (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 543
Nuclear reactor, α-radiation from the disintegration of boron in (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 543
Nuclei, rabbit-liver, preparation of (Ada, G. L.) 422
Nucleic acid in rabbit liver (Ada, G. L.) 422
Nucleic acid metabolism of *Escherichia coli* (Stephenson, M. & Moyle, J. M.) vii
Nucleic acids, chromatography of (Markham, R. & Smith, J. D.) 294
Nucleosides in nucleic acids, identification and estimation of (Markham, R. & Smith, J. D.) 294
Nucleus, cell, phosphorus compounds in (Davidson, J. N. & McIndoe, W. M.) xvi
Nutritive value of the nitrogenous substances in the potato (Chick, H. & Slack, E. B.) 211

Oat seed, germinating, activity of substituted β-phenoxyethylamines against (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Octadec-2-enoic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Oedema, plasma and tissue protein regeneration in renal disease with (Herbert, F. K.) xxii
Oestrogen excretion by mental patients (Reiss, M., Hemphill, R. E., Gordon, J. J. & Cook, E. R.) 574
Oil, whale liver, analysis of (Barua, R. K. & Morton, R. A.) 308
Oils, fish-liver, vitamin A potencies of (Coetzee, W. H. K.) 628
αβ-Oleic acid *see* Octadec-2-enoic acid
Oleic acid as an essential growth factor for *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B.W.) 417
Oleic acid, dietary, effect on composition and turnover rates of liver phospholipins (Campbell, I. G., Olley, J. & Blewett, M.) 105
Opisthobranch, tectibranch, pigments of (Comfort, A.) 199
Optical form of amino-acids, relation to biological activity in germination of *Bacillus anthracis* (Hills, G. M.) 363
Optical rotation of the molybdate complex of *dextro-iso*citric acid (Eggleston, L. V. & Krebs, H. A.) 578
Organic matrix of bone (Rogers, H. J.) xxiv
Organo-silicon compounds, naturally occurring (Holt, P. F. & Yates, D. M.) xxxii
Organs, frog, weight expressed as percentage of body weight (Morton, R. A. & Rosen, D. G.) 612
Ovaries in frog, carotenoids in (Morton, R. A. & Rosen, D. G.) 612
Ovaries in frog, dehydrosteroids in (Morton, R. A. & Rosen, D. G.) 612
Oxaloacetate, formation from fumarate by *Clostridium saccharobutyricum*, Strain GR4 (Cohen-Bazire, G. & Cohen, G. N.) 41
Oxazolines, use in isolation of threonine and serine from proteins (Elliott, D. F.) 429
Oxazolones and hatching of potato eelworm (Marrian, D. H., Russell, P. B. & Todd, A. R.) 533
Ox hide, preparation of collagen from (Bowes, J. H. & Kenten, R. H.) 281
Oxidase activity, mono-amine, of placenta and uterus (Thompson, R. H. S. & Tickner, A.) 125
Oxidase, amino-acid, of *Neurospora crassa* (Bender, A. E., Krebs, H. A. & Horowitz, N. H.) xxi
Oxidase, pyruvate, system in brain (Coxon, R. V., Liébecq, C. & Peters, R. A.) 320
Oxidase system, succinic, effect of sulphydryl-combining compounds on activity of (Slater, E. C.) 130
Oxidase system, succinic, of heart-muscle and kidney preparations (Slater, E. C.) 14
Oxidation of succinate, aerobic, action of inhibitors (Slater, E. C.) 8
Oxygen and oxidation of glucose by notatin (Bentley, R. & Neuberger, A.) 584
Oxygen uptake, manometric method for determination (Laser, H. & Rothschild, Lord) 598
Oxyhaemoglobin mobility in electrophoresis (Hoch, H.) 285

Palmitic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Palmitic acid, dietary, effect on composition and turnover rates of liver phospholipins (Campbell, I. G., Olley, J. & Blewett, M.) 105
Palmitoleic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Paper chromatography of the vitamin B_{12} group of factors (Lester Smith, E. & Cuthbertson, W. F. J.) xii
Paper partition chromatography, application of estimation of micro amounts of amino nitrogen (Woiwod, A. J.) 412
Paper partition chromatography of sugars in urine (Eastham, M.) xiii
Partition chromatography, paper, application of estimation of micro amounts of amino nitrogen to (Woiwod, A. J.) 412
Partition chromatography, paper, of sugars in urine (Eastham, M.) xii
Partition chromatography, separation of penicillins by (Dobson, F. & Stroud, S. W.) i
Partition chromatography, use in separation of serine and threonine (Elliott, D. F.) 429
Pea (*Pisum sativum*), chemical changes in carbohydrates during growth of (Eastham, M.) xvii

Pectic enzymes of *Byssochlamys fulva* (Beaven, G. H. & Brown, F.) 221
Penicillins, separation by partition chromatography (Dobson, F. & Stroud, S. W.) i
Penicillium luteum, sedimentation and diffusion of polysaccharides from (Ogston, A. G.) 189
Penicillium luteum series, metabolic products of (Freeman, G. G. & Macpherson, C. S.) 179
Pentabromoacetone, in estimation of citric acid (Weil-Malherbe, H. & Bone, A. D.) 377
Peptide amino nitrogen, determination of micro amounts of (Woiwod, A. J.) 412
Peptides of glutamic acid, as growth factors for *Corynebacterium diphtheriae* (Chattaway, F. W., Dolby, D. E., Hall, D. A. & Happold, F. C.) 592
Peptides, terminal, of insulin (Sanger, F.) 563
Perfusion of dog kidney *in situ* (Nicholson, T. F.) 112
Peripheral blood, bovine, acetic acid in (McClymont, G. L.) i
Peripheral nerve during Wallerian degeneration, lipid content (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Peroxidase, and oxidation of manganese (Kenten, R. H. & Mann, P. J. G.) 255
Petroselinic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Phenol, fate in rabbit (Garton, G. A. & Williams R. T.) 158
Phenoxyacetic acids, herbicidal effects, relationship to phenoxyethylamines (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Phenoxyacetic acids, possible formation from phenoxyethylamines by living plants (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
2-Phenoxyethylamine derivatives, effect on plant growth (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Phenylacetamide, hydrolysis by rabbit-liver preparation (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Phenylalanine as terminal amino-acid of insulin (Sanger, F.) 563
Phenylalanine, effect on polysaccharide content of *Escherichia coli* (Dagley, S. & Dawes, E. A.) 331
Phenylglucuronide, characterization and rate of hydrolysis compared with that of phenylsulphuric acid (Garton, G. A., Robinson, D. & Williams, R. T.) 65
Phenylglucuronide, fate in rabbit (Garton, G. A. & Williams, R. T.) 158
Phenylglucuronidic acid, benzylamine salt of (Garton, G. A., Robinson, D. & Williams, R. T.) 65
Phenyl phosphate, hydrolysis by acid phosphatases (Abul-Fadl, M. A. M. & King, E. J.) 51
Phenylsulphuric acid, fate in rabbit (Garton, G. A. & Williams, R. T.) 158
Phenylsulphuric acid, rate of hydrolysis compared with that of phenylglucuronide (Garton, G. A., Robinson, D. & Williams, R. T.) 65
Phoca groenlandica (Greenland seals), vitamin A and liver fat of (Rodahl, K. & Davies, A. W.) 408
Phoca vitulina (common seals), vitamin A and liver fat of (Rodahl, K. & Davies, A. W.) 408
Phosphatase, intestinal, of rat, effect of diet on (Lawrie, W. R. & Yudkin, J.) 435
Phosphatase, serum alkaline, inactivation by adrenaline (Anderson, A. B.) xxxvi
Phosphate buffer, effect of concentration on succinic oxidase activity (Slater, E. C.) 8
Phosphate-buffered medium for use with kidney slices (Robinson, J. R.) 68
Phosphate, inorganic, formation from adenosinetriphosphate on storage (Bailey, K) 479
Phosphate, reaction with mustard gas (Fleming, D. S., Moore, A. M. & Butler, G. C.) 546
Phosphatases, acid, of erythrocytes and of human prostate gland (Abul-Fadl, M. A. M. & King, E. J.) 51
Phosphates of calcium, solubility of (Robinson, J. R.) 68
Phosphatides in wheat starch (Rooke, H. S., Lampitt, L. H. & Jackson, E. M.) 231
Phosphoglucomutase, coenzyme of (Stickland, L. H.) xxi
Phospholipin determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, P. J.) 500
Phospholipin in rabbit liver (Ada, G. L.) 422
Phospholipin metabolism in rabbit-liver cytoplasm (Ada, G. L.) 422
Phospholipins in whale liver (Barua, R. K. & Morton, R. A.) 308
Phospholipins, liver, effect of dietary oleic and palmitic acids in the composition and turnover rates of (Campbell, I. G., Olley, J. Blewett, M.) 105
Phospholipins of rats on diets containing pure fatty acids (Campbell, I. G., Olley, J. & Blewett, M.) 105
Phospholipins, P-precursor of (Popják, G. & Muir, H. M.) xi
Phospholipins, transmission through placenta (Popják, G. & Beeckmans, M.-L.) x
Phosphorus, acid-soluble, in hen eggs during development of embryo (Ramsay, W. N. M.) ix
Phosphorus compounds in cell nucleus (Davidson, J. N. & McIndoe, W. M.) xvi
Phosphorus compounds of wheat starch (Rooke, H. S., Lampitt, L. H. & Jackson, E. M.) 231
Phosphorus, inorganic, in foetal fluids of sheep during gestation (McDougall, E. I.) 387
Phosphorus, radioactive, use in study of metabolism of rabbit-liver fractions (Ada, G. L.) 422
Phosphorylaminoethanol, in calf embryo muscle (Gordon, A. H.) 99
Phosphorylase, detection in barley (Porter, H. K.) xxxvii
Phosphorylases, plant, inhibition by β-amylase (Porter, H. K.) xxxvii
Photography, ultraviolet, and paper chromatography (Markham, R. & Smith, J. D.) 294
Photometer, photoelectric flame (Domingo, W. R. & Klyne, W.) 400
Photopic vision, relation to vitamin A and retinene (Ball, S. & Morton, R. A.) 298
Pigments, acid-soluble, of molluscan shells (Comfort, A.) 199, 204, 208
Pisum sativum, chemical changes in carbohydrates during growth of (Eastham, M.) xvii
Placenta, mono-amine oxidase activity of (Thompson, R. H. S. & Tickner, A.) 125
Placenta, transmission of phospholipins through (Popják, G. & Beeckmans, M.-L.) x
Plant extracts, oxidation of manganese by, in the presence of hydrogen peroxide (Kenten, R. H. & Mann, P. J. G.) 255
Plant growth, relationship between constitution and effect of 2-phenoxyethylamine derivatives (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Plant phosphorylases, inhibition by β-amylase (Porter, H. K.) xxxvii
Plants, aneurin-inactivating mechanism of (Roberts, H. E., Evans, W. T. R. & Evans, W. C.) xxx
Plasma protein regeneration in renal disease with hypoproteinaemia and oedema (Herbert, F. K.) xxii
Poisoning, bracken, of farm animals (Roberts, H. E., Evans, E. T. R. & Evans, W. C.) xxx
Polydisperse material in the Gouy diffusiometer (Ogston, A. G.) 189
Polypeptides, arrangement in insulin (Sanger, F.) 563
Polypeptides, deamination by X-rays (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 93

Polypeptides in nisin (Berridge, N. J.) 486
Polysaccharide, bacterial, determination of (Dagley, S, & Dawes, E. A.) 331
Polysaccharide content of *Escherichia coli* (Dagley, S. & Dawes, E. A.) 331; xxvi
Polysaccharides from *Penicillium luteum*, sedimentation and diffusion of (Ogston, A. G.) 189
Polysaccharides, new, isolation from *Penicillium luteum* (Freeman, G. G. & Macpherson, C. S.) 179
Polyuronic acid in *Byssochlamys fulva* (Beaven, G. H. & Brown, F.) 221
Porphyria, congenital, stercobilin formation in (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) xvi
Porphyrin derivatives of *Corynebacterium diphtheriae* (Rawlinson, W. A. & Hale, J. H.) 247
Porphyrin metabolism in rabbit (Niven, J. S. F. & Neuberger, A.) iv
Porphyrins, biogenesis of (Muir, H. M. & Neuberger, A.) 163
Porphyrins in rabbits, biogenesis of (Muir, H. M. & Neuberger, A.) xxxiv
Porphyrins, shell, identification (Nicholas, R. E. H. & Comfort, A.) 220
Potassium in blood and urine, determination by flame photometer (Domingo, W. R. & Klyne, W.) 400
Potassium in foetal fluids of sheep during gestation (McDougall, E. I.) 397
Potassium ions, radioactive, transport through gastric mucosa (Crane, E. E. & Davies, R. E.) xxiii
Potato apyrase, use for assay of adenosinetriphosphate (Bailey, K.) 479
Potato, distribution and nutritive value of the nitrogenous substances in (Chick, H. & Slack, E. B.) 211
Potato eelworm hatching factor (Calam, C. T., Raistrick, H. & Todd, A. R.) 513; (Calam, C. T., Todd, A. R. & Waring, W. S.) 520; (Marrian, D. H., Russell, P. B., Todd, A. R. & Waring, W. S.) 524; (Russell, P. B., Todd, A. R. & Waring, W. S.) 528, 530; (Marrian, D. H., Russell, P. B. & Todd, A. R.) 533
Potency calculator for use with logarithmic dose response curves (Basil, B.) xvii
Prawn, astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Precursor of phospholipids (Popják, G. & Beeckmans, M.-L.) xi
Pregnancy, composition of allantoic and amniotic fluids during gestation from ewes fed during (McDougall, E. I.) 397
Pregnancy in the rat, respiration and acid production of mammary tissue during (Folley, S. J. & French, T. H.) 270
Pregnane-3α:17α:20-triol, urinary, configuration at C-20 of (Klyne, W.) viii
Proliferation, effect on glucuronide-synthesizing system in mouse liver (Karunairatnam, M. C., Kerr, L. M. H. & Levvy, G. A.) 496
Propionamide and propionic acid, hydrolysis by rabbit-liver preparations (Bray, H. G., James, S. P., Thorpe, W. B. V., Wasdell, M. R. & Wood, P. B.) 467
Propionamide and propionic acid metabolism in rabbits (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Prostate gland, human, acid phosphatases of (Abul-Fadl, M. A. M. & King, E. J.) 51
Prosthetic groups of the cytochromes present in *Corynebacterium diphtheriae* (Rawlinson, W. A. & Hale, J. H.) 247
Protein and di-2-chloroethyl sulphide, antisera against complexes of (Fleming, D. S., Moore, A. M. & Butler, G. C.) 546
Protein hydrolysate, isolation of glucosamine and histidine from (Partridge, S. M.) 459
Protein in rabbit liver (Ada, G. L.) 422
Protein levels, dietary, influence on experimental liver injury in dogs (Bardawill, C. J. & Gornall, A. G.) iii
Protein nitrogen in foetal fluids of sheep during gestation (McDougall, E.) 397
Protein, plasma and tissue, regeneration in renal disease with hypoproteinaemia and oedema (Herbert, F. K.) xxii
Proteins, combination with suramin (Wilson, E. J. & Wormall, A.) 224
Proteins, hydrolysis of (Flowers, H. M. & Reith, (Reich), W. S.) xx
Proteins, in connective tissue, amino-acids of (Bowes, J. H. & Kenten, R. H.) 281
Proteins, isolation of L-threonine from (Elliott, D. F.) 429
Proteins of potato (Chick, H. & Slack, E. B.) 211
Proteus morganii, glutamic decarboxylase and glutaminase from (Hughes, D. E.) 325
Protocatechuic acid, fate in rabbit (Dodgson, K. S. & Williams, R. T.) 381
Protocatechuic aldehyde, fate in rabbit (Dodgson, K. S. & Williams, R. T.) 381
Protopectinase of *Byssochlamys fulva* (Beaven, G. H. & Brown, F.) 221
Psychotic patients, cholinesterase of serum and cerebrospinal fluid of (Early, D. F., Hemphill, R. E., Reiss, M. & Brummel, E.) 552
Purines in nucleic acids, identification and estimation of (Markham, R. & Smith, J. D.) 294
Pyrimidine bases in nucleic acid, identification and estimation of (Markham, R. & Smith, J. D.) 294
Pyrophosphate, formation of manganese complex by hydrogen peroxide and plant extracts (Kenten, R. H. & Mann, P. J. G.) 255
Pyrophosphate, inorganic, formation from adenosinetriphosphate on storage (Bailey, K.) 479
Pyruvate, fermentation by *Clostridium saccharobutyricum*, strain GR4 (Cohen-Bazire, G. & Cohen, G. N.) 41
Pyruvate-oxidase system in brain (Coxon, R. V., Liébecq, C. & Peters, R. A.) 320

Quaternary ammonium salts, herbicidal activity of (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Quaternary ammonium salts, respiration of rat-liver slices in presence of (Long, C.) xi
Quinine salt of eclepic acid (Calam, C. T., Todd, A. R. & Waring, W. S.) 520
Quotients, respiratory, manometric method for determination of (Laser, H. & Rothschild, Lord) 598

Rabbit, biogenesis of porphyrins in (Muir, H. M. & Neuberger, A.) xxxiv
Rabbit, biosynthesis of cyanophenylglucuronides by (Smith, J. N.) 638
Rabbit, fate of (+)-adrenaline, protocatechuic acid and protocatechuic aldehyde in (Dodgson, K. S. & Williams, R. T.) 381
Rabbit, fate of lower aliphatic amides in (Bray, H. G., James, S. P., Thorpe, V., W. Wasdell, M. R. & Wood, P. B.) 467
Rabbit, fates of phenol, phenylsulphuric acid and phenylglucuronide and metabolism of benzene (Garton, G. A. & Williams, R. T.) 158
Rabbit-liver cytoplasm, phospholipin metabolism in (Ada, G. L.) 422
Rabbit liver, distribution of glycogen in (Nys, A., Aubert, X. & Duve, C. de) 245
Rabbit, metabolism of toluic acids and amides (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 45
Rabbit plasma, vitamin A following adrenalin injection (Goodwin, T. W. & Wilson, A. A.) 370
Rabbit, porphyrin metabolism in (Niven, J. S. F. & Neuberger, A.) iv

X-Radiation, deamination of nitrogenous compounds by (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 93
α-Radiation from disintegration of boron, deamination of glycine by (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 543
Radioactive iodine, absorption and excretion of DL-thyroxine labelled with (Clayton, J. C., Free, A. A., Page, J. E., Somers, C. F. & Woollett, E. A.) xx
Radioactive sodium and potassium ions, transport through gastric mucosa (Crane, E. E. & Davies, R. E.) xxiii
Rana temporaria, carotenoids, vitamin A and 7-dehydrosteroid in (Morton, R. A. & Rosen, D. G.) 612
Rape seed, germinating, activity of substituted β-phenoxyethylamines against (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Rat, conversion of acetate to glycine in (Arnstein, H. R. V. & Neuberger, A.) iii
Rat, effect of diet on intestinal phosphatase of (Lawrie, N. R. & Yudkin, J.) 438
Rat, irreversible deamination of threonine in (Elliott, D. F. & Neuberger, A.) xiii
Rat liver, amino-acid decarboxylases of (Sloane-Stanley, G. H.) 556
Rat-liver slices, respiration in presence of aliphatic amines, hydroxy-amines and quaternary ammonium salts (Long, C.) xi
Rat plasma, vitamin A level following adrenaline injection (Goodwin, T. W. & Wilson, A. A.) 370
Rat, respiration and acid production of mammary tissue during pregnancy, lactation and involution in (Folley, S. J. & French, T. H.) 270
Rats, adult and newborn, effects of glucose and calcium on the metabolism of kidney slices from (Robinson, J. R.) 68
Rats, degeneration in central nervous system and vitamin A deficiencies in (Coetzee, W. H. K.) 628
Rats, intestinal flora and nicotinamide metabolism (Ellinger, P. & Abdel Kader, M. M.) 276
Rats, nicotinamide methochloride excretion of (Ellinger, P. & Abdel Kader, M. M.) 276
Reductone, condensation products with sulphonamides (Bell, E. A., Cocker, W. & O'Meara, R. A. Q.) 373
Renal clearance of fructosans (Beattie, J. & Corcoran, A. C.) xv
Renal disease with hypoproteinaemia and oedema, plasma and tissue protein regeneration (Herbert, F. K.) xxii
Renal function, and unilateral kidney lesions, effect of cyanide (Nicholson, T. F.) 112
Reproduction and vitamin A in frog (Morton, R. A. & Rosen, D. G.) 612
Resins, ion-exchange, displacement chromatography on (Partridge, S. M.) 459
Resins, ion-exchange, fractionation of weak electrolyte mixtures on (Davies, C. W.) 38
Resistance, capillary, of guinea pigs (Zilva, S. S.) 79
Respiration of lactating mammary gland slices in presence of carbohydrates (Folley, S. J. & French, T. H.) 117
Respiration of mammary tissue during pregnancy, lactation and involution in the rat (Folley, S. J. & French, T. H.) 270
Respiration of rat-liver slices in the presence of aliphatic amines, hydroxyamines and quaternary ammonium salts (Long, C.) xi
Respiratory catalyst required for the reduction of cytochrome *c* by cytochrome *b* (Slater, E. C.) 14
Respiratory quotients, manometric method for determination of (Laser, H. & Rothschild, Lord) 598
Reticular tissue, amino-acid distribution of (Bowes, J. H. & Kenten, R. H.) 281
Reticular tissue, preparation of (Bowes, J. H. & Kenten, R. H.) 281
Retinae, sheep, metabolism of (Laser, H. & Rothschild, Lord) 598
Retinene, reactions with amino compounds (Ball, S., Collins, F. D., Dalvi, P. D. & Morton, R. A.) 304
Retinene, relation to photopic vision (Ball, S. & Morton, R. A.) 298
Rhodopsin-like substance from retinene (Ball, S., Collins, F. D., Dalvi, P. D. & Morton, R. A.) 304
Riboflavin deficiency interrelationship of vitamin B (Bhagvat, K. & Devi, P.) 32
Ribonucleic acids, quantitative analysis of (Markham, R. & Smith, J. D.) xxxii
Ribosides, purine and pyrimidine, chromatography of (Markham, R. & Smith, J. D.) 294
Ricinoleic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Ring cleavage by means of a cell-free enzyme system (Parr, W. H., Evans, R. A. & Evans, W. C.) xxix
Root extracts, horse-radish, oxidation of manganese by (Kenten, R. H. & Mann, P. J. G.) 255
Roseins I, II and III from *Trichothecium roseum*, isolation and properties of (Freeman, G. G., Morrison, R. I. & Michael, S. E.) 191
Rotation, optical, of the molybdate complex of *dextro-iso*-citric acid (Eggleston, L. V. & Krebs, H. A.) 578

Salmon (*Salmo salar* L.), developing, distribution of ascorbic acid in (Daniel, R. J.) 435
Schistocerca gregaria Forsk, carotenoid distribution of (Goodwin, T. W.) 472
Schistocerca gregaria Forsk, carotenoids of the integument of (Goodwin, T. W. & Srisukh, S.) 263
Scurvy in guinea pigs, effect on capillary resistance (Zilva, S. S.) 79
Sea flea, astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Seals, vitamin A in (Rodahl, K. & Davies, A. W.) 408
Sedimentation of polysaccharides from *Penicillium luteum* (Ogston, A. G.) 189
Seeds, germinating, activity of substituted β-phenoxyethylamines against (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 143
Sericin, silk, isolation of serine from (Elliott, D. F.) 429
Serine, isolation from proteins (Elliott, D. F.) 429
Serine, separation from threonine (Elliott, D. F.) 429
Serum albumins, mobility in electrophoresis (Hoch, H.) 285
Serum alkaline phosphatase, inactivation by adrenaline (Anderson, A. B.) xxxvi
Serum cholinesterase of psychotic patients (Early, D. F., Hemphill, R. E., Reiss, M. & Brummel, E.) 552
Serum of newborn animals, cholinesterase activity of (McCance, R. A., Hutchinson, A. O., Dean, R. F. A. & Jones, P. E. H.) 493
Serum, sheep, and foetal fluids (McDougall, E. I.) 397
Shells, molluscan, acid-soluble pigments of (Comfort, A.) 199, 204, 208
Silica-gel columns, buffered, use in chromatographic separation of 2:4-dinitrophenyl amino-acids (Blackburn, S.) 579
Silicon, naturally occurring, in organic compounds (Holt, P. F. & Yates, D. M.) xxxii
Silk sericin, isolation of serine from (Elliott, D. F.) 429
Sodium in blood and urine, determination by flame photometer (Domingo, W. R. & Klyne, W.) 400
Sodium ions, radioactive, transport through gastric mucosa (Crane, E. E. & Davies, R. E.) xxiii
Sodium in foetal fluids of sheep during gestation (McDougall, E. I.) 397
Solanum nigrum as a source of the potato eelworm hatching factor (Russell, P. B., Todd, A. R. & Waring, W. S.) 528
Sphingomyelin determination in degenerating cat nerves (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500

Spore-bearing aerobes, germination of (Hills, G. M.) 353, 363
Squash (*Cucurbita pepo*), glutamic decarboxylase of (Hughes, D. E.) 325
Starch, wheat, phosphorus compounds of (Rooke, H. S., Lampitt, L. H., & Jackson E. M.) 231
Stearic acid and growth of *Corynebacterium* 'Q' (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417
Stercobilin formation in congenital porphyria and in the normal (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) xvi
Stem of walnut, apparent vitamin C in (Wokes, F. & Melville, R.) 343
Steroid excretion, urinary, regulation of (Reiss, M., Hemphill, R. E., Gordon, J. J. & Cook, E. R.) 574
Steroids, 7-dehydro-, in the frog (Morton, R. A. & Rosen, D. G.) 612
Streptococcus agalactiae, inhibition by nisin (Berridge, N. J.) 486
Streptococcus cremoris, inhibition by nisin (Berridge, N.J.) 486
Streptococcus haemolyticus, breakdown of *N*-acetylglucosamine by strains of (Rogers, H. J.) 87
Subterranean organs of some Compositae, carbohydrates present in (Bacon, J. S. D. & Edelman, J.) xxviii
Succinate, aerobic oxidation of inhibitors of (Slater, E. C.) 8
Succinic dehydrogenase-cytochrome system in heart muscle and in kidney (Slater, E. C.) 1
Succinic oxidase system, effect of sulphydryl-combining compounds on activity of (Slater, E. C.) 130
Succinic oxidase system, inhibitors of (Slater, E. C.) 8
Succinic oxidase system, measurement of (Slater, E. C.) 1
Succinic oxidase system of heart-muscle and kidney preparations (Slater, E. C.) 14
Sucrose, dietary, effect on intestinal phosphatase of rat (Lawrie, N. R. & Yudkin, J.) 438
Sugar, effect on polysaccharide content of *Escherichia coli* (Dagley, S. & Dawes, E. A.) 331
Sugar formation in cress seedlings in relation to ascorbic acid synthesis (Mapson, L. W., Cruickshank, E. M. & Chen, Yu-Tuan) 171
Sugars, amino, metabolism of (Rogers, H. J.) 87
Sugars, determination of lactose in mixture (Malpress, F. H. & Morrison, A. B.) 455
Sugars in urine, paper-partition chromatography of (Eastham, M.) xiii
Sulphate, conjugation of xylene metabolites with (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 241
Sulphonamide derivatives, intracellular mode of action (Bell, E. A., Cocker, W. & O'Meara, R. A. Q.) 373
Sulphuric esters from rabbit urine after feeding 4-chlorocatechol and 4-chlororesorcinol (Dodgson, K. S. & Williams, R. T.) 381
Sulphydryl-combining compounds, effect on the activity of the succinic oxidase system (Slater, E. C.) 130
Suramin, combination with proteins (Wilson, E. J. & Wormall, A.) 224
Susceptibility, magnetic, of dihydroxyl haems (Keilin, J.) 448

Tadpoles, occurrence of vitamin A and carotenoids in (Morton, R. A. & Rosen, D. G.) 612
D-Tartrate, effect on acid phosphatases (Abul-Fadl, M. A. M. & King, E. J.) 51
Tea manufacture, fermentation process in (Roberts, E. A. H.) 538
Tectibranch opisthobranchs, pigments of (Comfort, A.) 199
Terminal peptides of insulin (Sanger, F.) 563
Tetrapyrrole, possible nature of *Haliotis* pigments (Comfort, A.) 204
Tetrapyrroles, linear, occurrence in Turbinidae (Comfort, A.) 199
1:4-Thiazan-4-acetic acid from mustard gas and ethyl aminoacetate (Fleming, D. S., Moore, A. M. & Butler, G. C.) 546
Thiol groups and suramin (Wilson, E. J. & Wormall, A.) 224
Thiouracil, effect on carotene metabolism (Cama, H. R. & Goodwin, T. W.) 236
Thiouracil, effect on water-soluble vitamins in milk (Chanda, R., McNaught, M. L. & Owen, E. C.) xix
Threonine in rat, irreversibility of deamination of (Elliott, D. F. & Neuberger, A.) xiii
L-Threonine, isolation from proteins (Elliott, D. F.) 429
Thyroid, effect on β-carotene (Cama, H. R. & Goodwin, T. W.) 317
Thyroid, role in metabolism of carotene and vitamin A (Cama, H. R. & Goodwin, T. W.) 236
Thyroxine, effect on water-soluble vitamins in milk (Chanda, R., McNaught, M. L. & Owen, E. C.) xix
DL-Thyroxine labelled with radioactive iodine, absorption and excretion of (Clayton, J. C., Free, A. A., Page, J. E., Somers, G. F. & Woollett, E. A.) xx
Tigriopus fulvus Fisch., astaxanthin in (Goodwin, T. W. & Srisukh, S.) 268
Tissue protein regeneration in renal disease with hypoproteinaemia and oedema (Herbert, F. K.) xxii
Tissue, reticular, amino-acid distribution of (Bowes, J. H. & Kenten, R. H.) 281
Toluene derivatives, metabolism of (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 241
Toluic acids, fate in rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 45
Tomato, roots, preparation of eelworm hatching factor from (Calam, C. T., Raistrick, A. R. & Todd, A. R.) 513
Transport of radioactive sodium and potassium ions through gastric mucosa (Crane, E. E. & Davies, R. E.) xxiii
Tricarboxylic acid cycle in brain (Coxon, R. V., Liébecq, C. & Peters, R. A.) 320
1:1:1-Trichloro-2:2-di(*p*-chlorophenyl)ethane (DDT), determination of chlorine in (Judah, J. D.) 60
Trichloroethylene, estimation in blood (Brain, F. H. & Helliwell, P. J.) 75
Trichothecin from *Trichothecium roseum* (Freeman, G. G., Morrison, R. I. & Michael, S. E.) 191
Trichothecium roseum Link, metabolic products of (Freeman, C. G., Morrison, R. I. & Michael, S. E.) 191
Trochidae, pigments of (Comfort, A.) 199
Tropomyosin, effect of electrolytes on molecular weight of (Adair, G. S., Bailey, K. & Tsao, T. C.) v
Trypanocides, combination with proteins (Wilson, E. J. & Wormall, A.) 224
Tryptophan, effect on nicotinamide metabolism (Ellinger, P. & Abdel Kader, M. M.) 276
Tryptophanase-tryptophan indole reaction, energy of activation of (Happold, F. C. & Morrison, G. A.) xx
Tuberin of potato (Chick, H. & Slack, E. B.) 211
Tubers, action of an enzyme preparation from *Helianthus tuberosus* L. (Jerusalem artichoke) on the carbohydrates present in (Edelman, J. & Bacon, J. S. D.) xxix
Turbinidae, pigments of (Comfort, A.) 199
Tyrosine, effect on germination of spores of *Bacillus anthracis* (Hills, G. M.) 363

Ultraviolet absorption of phenylglucuronidic acid (Garton, G. A., Robinson, D. & Williams, R. T.) 65
Ultraviolet photography and paper chromatography (Markham, R. & Smith, J. D.) 294
Umbilical cord blood, enzyme activities of (Jones, R. E. H. & McCance, R. A.) 464
Unsaturated fatty acids, long-chain, as essential bacterial growth factors (Pollock, M. R., Howard, G. A. & Boughton, B. W.) 417

Urinary steroid excretion, regulation of (Reiss, M., Hemphill, R. E., Gordon, J. J. & Cook, E. R.) 574
Urine albumins, mobility in electrophoresis (Hoch, H.) 285
Urine, determination of sodium and potassium in, by flame photometer (Domingo, W. R. & Klyne, W.) 400
Urine, foetal, of sheep (McDougall, E. I.) 397
Urine, human, determination of *N*-methyl-2-pyridone-3-(and -5-) carboxylamide (Holman, W. I. M. & Lange, D. J. de) 559
Urine, paper-partition chromatography of sugars in (Eastham, M.) xiii
Urine, pregnane-3α:17α:20-triol of, configuration at C–20 of (Klyne, W.) viii
Urohaem, dihydroxyl compounds of (Keilin, J.) 448
Uroporphyrin in molluscan shells (Nicholas, R. E. H. & Comfort, A.) 208
Uterus, mono-amine oxidase activity of (Thompson, R. H. S. & Tickner, A.) 125

n-Valeramide and valeric acid, hydrolysis by rabbit-liver preparation (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
n-Valeramide and valeric acid metabolism in rabbits (Bray, H. G., James, S. P., Thorpe, W. V., Wasdell, M. R. & Wood, P. B.) 467
Vanadic acid, use in micro-estimation of citric acid (Weil-Malkerbe, H. & Bone, A. D.) 377
Vision, photopic, relation to vitamin A, and retinene, (Ball, S. & Morton, R. A.) 298
Vitamin A, absorption of (Eden, E. & Sellers, K. C.) xxxiii
Vitamin A, alleged formation from β-carotene treated with iodinated casein (Cama, H. R. & Goodwin, T. W.) 317
Vitamin A, alleged mobilization by adrenaline (Goodwin, T. W. & Wilson, A. A.) 370
Vitamin A, histological method for the biological estimation of (Coetzee, W. H. K.) 628
Vitamin A in seals (Rodahl, K. & Davies, A. W.) 408
Vitamin A in the frog, analytical methods for determination (Morton, R. A. & Rosen, D. G.) 612
Vitamin A in whale liver oil (Barua, R. K. & Morton, R. A.) 308
Vitamin A, locusts as possible source in native diets (Goodwin, T. W.) 472
Vitamin A, non-existence in locusts (Goodwin, T. W. & Srisukh, S.) 263
Vitamin A, preformed in northern krill (Kon, S. K. & Thompson, S. Y.) xxxi
Vitamin, A_1, relation to photopic vision (Ball, S. & Morton, R. A.) 298
Vitamin A, role of the thyroid in metabolism of (Cama, H. R. & Goodwin, T. W.) 236
Vitamin B_{12}, cup plate assay of (Cuthbertson, W. F. J. & Lloyd, J. T.) xvii
Vitamin B_{12} group of factors, paper chromatography of (Lester Smith, E. & Cuthbertson, W. F. J.) xii
Vitamin C, apparent, in walnut (Wokes, F. & Melville, R.) 343
Vitamin P. 3 (Zilva, S. S.) 79
Vitamins B in aneurin, riboflavin and biotin deficiencies (Bhagvat, K. & Devi, P.) 32
Vitamins, water-soluble, in milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) xix

Wallerian degeneration, lipid content of peripheral nerve during (Johnson, A. C., McNabb, A. R. & Rossiter, R. J.) 500
Walnut, apparent vitamin C in (Wokes, F. & Melville, R.) 343
Water, apparatus for micro-electrolysis of (Bentley, R.) 591
Water-soluble vitamins in milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) xix
Weak electrolyte mixtures, fractionation by ion-exchange resins (Davies, C. W.) 38
Weaning in the rat, respiration and acid production of mammary tissue during (Folley, S. J. & French, T. H.) 270
Whale liver oil analysis (Barua, R. K. & Morton, R. A.) 308
Wheat starch, phosphorus compounds of (Rooke, H. S., Lampitt, L. H., & Jackson E. M.) 231
Wings, locust, carotenoids of (Goodwin, T. W. & Srisukh, S.) 263

Xanthophyll in tadpoles (Morton, R. A. & Rosen, D. G.) 612
Xylenes, metabolism of (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 241

Yeast extract, effect on germination of *Bacillus anthracis* (Hills, G. M.) 353
Yeast, growth factors for *Corynebacterium diphtheriae* from (Chattaway, F. W., Dolby, D. E., Hall, D. A.& Happold, F. C.) 592
Yellow, indicator, and retinene (Ball, S., Collins, F. D., Dalvi, P. D. & Morton, R. A.) 304
Yields, ionic, in radiation processes, calculation processes (Dale, W. M., Davies, J. V. & Gilbert, C. W.) 93
Yolk of salmon egg, ascorbic acid in (Daniel, R. J.) 435
